

# Welcome

TO ST. JOHN'S COLLEGE

*"The St. John's College program is a true education.  
So many institutions prepare one for a specific  
field of study, but not how to be a person, to hold one's  
own in conversation, to live virtuously and to question  
the world around us."*

# Congratulations

*“We develop the skills that are essential for success in our dynamic, ever-changing world.”*

Congratulations on your admission to St. John’s College.

As Presidents of St. John’s, we don’t just welcome new students into our college, we welcome the whole family. As you and your family consider joining the St. John’s community, we invite you to learn more about us. Read the materials we send in the mail, but also connect with admissions to speak with a student, faculty member or alum. Or contact us directly—we are always eager to converse with students, and their families.

As parents ourselves, we want to share with you three qualities that make St. John’s the best education in America.

First, we nourish the spirit of wonder in our students. We do this by placing many of the world’s most significant books and ideas at the center of our curriculum, and we encourage an ongoing conversation that does not stop at the classroom door. At no other college do students and faculty read and discuss with such intense passion authors such as Plato, Shakespeare, Austen, and Einstein.

Second, not only does this education create students who are deep thinkers, great writers, and good citizens, it prepares students for the future. We develop the skills that are essential for success in our dynamic, ever-changing world: critical thinking, collaboration, communication, and creativity. As a result, our alumni are leaders in business, science, law, journalism, government, education, and in nearly every field of human endeavor.

Third, we firmly believe that this Great Books education should be available to the best and brightest regardless of background. That is why we announced in 2018 that the college is raising \$300 million toward financial aid, enabling St. John’s to reduce tuition for the first time in its history. The students we admit to the college are receiving about \$24,000 from alumni in order to reduce tuition to \$35,000. Many pay less with financial aid. Don’t take our word for it. We are delighted to welcome you and your family to our community.
